

**“**Concept IT has provided an excellent level of service for our IM&T vacancies. Many of the candidates supplied have been required at short notice. What has impressed is that every candidate had all the technical skills required and all were all very amiable, fitting well into existing teams. Concept IT has also been very helpful in obtaining CRB certification for all contractors. I would be more than happy to recommend Concept IT to other NHS organisations.**”**

University Hospitals of Leicester  
Technical Support Manager

**PROVIDING**  
**IM&T STAFF**  
**UK**  
**WIDE**

Our NHS division specialise in providing temporary and permanent IM&T staff, who understand the NHS culture. Our clients include a wide range of Acute and Primary Care Trusts, Health Informatics Services and Strategic Health Authorities to the Department of Health.

Our extensive pool of candidates with NHS experience enables us to supply contract and permanent professionals who closely match the exact requirements of our clients.

We are committed to working proactively with NHS organisations to offer a best value, effective and high quality recruitment service.
